Built for the Long View

- Roughly \$200M deployed across 60+ investments in the sectors shaping the next economy
- A disciplined, long-term orientation aligned with the durations these companies require to build
- Selective by design, with a deliberately narrow filter and concentrated conviction in every position we hold
- A relationship-first approach, built on long-term alignment with the investors and founders we work alongside
- Active engagement well beyond deployment, in support of durable, long-term value creation

**“We’re not a blind pool fund.
We’re not a mass-market platform.
We’re a direct line into vetted private
market opportunities; structured for
alignment, built on trust.**

Staying ahead of the curve – Our focus

Our edge is foresight. We continually identify opportunities we believe will define the next cycle — often long before they become widely known

and the select few investors in our circle are the first to know. These days our focus is towards:

Pre-IPO conviction across artificial intelligence and fintech

Secondary opportunities in leading U.S. late-stage companies

Asset-backed private credit with a considered yield profile

Co-investments alongside leading fund managers

Let's Build a Direct Relationship
